

BSM 2500 band saw for plastic pipes Ø 710 - 2500 mm

Standard Equipment

Machine stand in robust distortion-free structural steelwork.
Saw frame in distortion-free structural steelwork.
Precision cut with a side bow concept.
Electronic controlled cutting feed motion, continuously adjustable.
Saw band deflection with ball bearings.
Saw band tensioning device, Mechanical tube fixing.
Mitre cutting mechanism with 0° - 45° to the left and
0° - 90° to the right. Control cabinet with ON - OFF main switch,
contactor, and protective motor switchgear. Low level table.
Laser equipment to control the cutting. 1 saw band.

Technical Data

Dimensions and Weights

Length	6000 mm
Width	5500 mm
Height	4500 mm
Weight	4600 kg

Electrical Data

Drive motor saw band	400 V	5,5 kW	50 / 60 Hz
Saw Frame servo motors	400 V	0,75 kW	50 / 60 Hz

Cutting range 710 mm up to 2500 mm
